Dear Mr. Weisberg:

I was wondering if you had obtained any futher information concerning the two Morgan letters, copies of which you sent me 11 August? It might be helpfull for me to get intouch with the writer and if you have not written Mr. Morgan as of this time, perhaps you could give me his address and I could do so myself.

The technique used in the Morgan letter of 6 January does not seem to be repeated in any of the other letters which were send to the Soviet Embassy in Washington by the Oswalds. I have considered making this information available to others who are more advanced in Cryptography than I and before I do so, I would like to know if you would be in agreement on this.

Sincerely yours,

Emory L Brown Jr.
